**Air Handling Technology**

## **An overview of the entire range of the industry: Publication of the new product directory "Fire protection and smoke extraction"**

**Prior to the 6th VDMA Symposium "Fire Protection and Smoke Extraction" on 12 March in Neckarsulm, the current edition of the product directory will be published as online version.**

**Frankfurt, January 31, 2020** - The manufacturing sector fire protection and smoke extraction of the VDMA Air Pollution Control department has a large variety of system components for all system sizes. The new edition of the product directory provides detailed information in German and English on the range of products and services offered by the industry.

In addition, the VDMA Symposium "Fire Protection and Smoke Extraction - Focus on the New Regulations and Procedures" including trade exhibition and factory tour, will take place on March 12, 2020. For the sixth time, legal and authorized experts as well as experts from the VDMA Fire Protection and Smoke Extraction Working Group will shed light on the background to the changes in construction product law. Amongst other things, they will discuss current developments in the Model Administrative Regulation for Technical Building Regulations (MVV TB) and their practical application as well as procedures against the background of the new regulations.

The product directory as well as further details on the symposium are available as downloads at <https://rauchschutz.vdma.org> or <https://lr.vdma.org/>.

Do you have any questions? Mrs. Christine Montigny, technical consultant of the Air Pollution Control Department, phone 069 6603 1860, [christine.montigny@vdma.org](mailto:christine.montigny@vdma.org), will gladly answer your questions.
